

TPL-GAT002

## G Series: UHF RFID Antenna (TPL-GAT002)

**TPL-GAT002** UHF RDID antenna can be utilized to product circularly polarized radiation with high antenna gain and uniform field strength distribution

### OVERVIEW

- Precision targeting of radio signals
- Reliable and functional design
- Ability to withstand extreme environments
- Easy installation

Product Code	TPL-GAT002
<b>Performance parameters</b>	
Frequency range	902 -928Mhz
Antenna gain	8dBi
Polarization	Circularly polarized
Input impedance	50Ω
Connector	N-50K
<b>Physical parameters</b>	
Size	250 x 250 x 45 mm
Weight	2Kg
Working temperature	-40 ~ 85 °C
Sealing	IP65
Antenna material	ABS & aluminum
Antenna color	Black
